

CORPORATE MESSAGE

DRIVING IN INCLEMENT WEATHER

ALWAYS wear your **seatbelt, not just in inclement weather.**

Perform a pre-trip inspection to be sure **all components of your vehicle are in working order**

Leave room between you and the car in front of you in case you need to stop. Leave an "out" for yourself

Before driving in hazardous conditions, **knowing how your vehicle will react** is going to help you maintain control in emergencies

GOALS REGIONAL/LOCAL OPERATIONS

Last Week

This Week

IMPORTANT REMINDER

DAILY SAFETY NUGGETS

MONDAY

TRUE or FALSE. When driving in inclement weather you should focus on vehicles in front of you, either in your lane or the opposite lane. FALSE - be aware of those behind you and watch cars entering intersections as you approach an intersection yourself.

TUESDAY

How much should you increase the 4 second rule when driving in rain, snow, ice, or other inclement weather? Increase the 4 second rule to 8 seconds when driving in inclement weather.

WEDNESDAY

What is a good rule of thumb with your headlights during inclement weather? You should turn your headlights on whenever you turn your windshield wipers on.

THURSDAY

What are three specific items you should always maintain for driving in inclement weather? Be sure your windshield wipers are in good condition, your windshield and headlights are clean, and your washer fluid is filled.

FRIDAY

When are roads more prone to frost as the weather cools? Look for frost on roads during late evening and early morning hours.

SATURDAY

Where should you test your vehicle's braking ability in icy or snowy weather? Test your breaks in a remote area such as an empty parking lot.

DRIVE SAFETY TIP

Beware of School Zones

Be alert to children in or near roads when driving near a school zone.
